Team – On Monday, Gaming had a presentation slot at the quarterly board meeting. At each board meeting, one of Microsoft's CSAs present and this was our turn.

Gaming Board Presentation 2020

Phil Spencer
Head of Gaming

Microsoft Flight Simulator – available soon on Xbox Game Pass

Gaming

Overall assessment

Gaming continues to see growth at-scale with 1 in 3 people globally playing games. Games content remains key differentiator to success with consumers. Our investment in Game Studios acquisitions enables us to deliver quality content in FY21 and FY22. Google, nVidia, Amazon exploring Cloud game streaming, but lack the content portfolio and partner relationships today to attract and retain customer-base.

Growth opportunities

Xbox Game Pass subscription business has surpassed 10M users and is biggest game subscription service on the planet, with high user engagement and post-sales monetization.

xCloud game streaming is a new service growth area with potential to reach 2 billion players across the planet on every computing end-point. Estimated to be biggest game streaming service globally.

Xbox Series X, the next generation Xbox console, will launch in Holiday 2020, expanding our relationships with gamers and developers and accelerating our Xbox Games Pass & xCloud ambitions.

TAM	Core TAM		Microsoft revenue	
FY20E	FY20-23 CAGR (%)	FY20E	FY20-23 CAGR (%)	FY20-23 CAGR (%)

Gaming

GTM Strategy

Console:

- Retain and grow existing and new user base with the next generation Xbox console, “Series X”, driving attached users with high, predictable ARPU
- Increase ARPU through AI personalization of storefront and recommendations
- Accelerate Series X momentum with exclusive gaming experiences from Xbox Games Studios, including Halo Infinite

Developer:

- Provide at-scale game development environment for developers with Series X that easily transfers to PC and xCloud platform, enabling build once, deploying to every computing end-point
- Growing developer base (from currently 2000 games being developed in Xbox ecosystem) on Console and PC

Subscription:

- Grow gaming market on PC, mobile and console through Game Pass content subscription service

Streaming:

- Drive global expansion of product delivery to mobile and PC end-points with xCloud game streaming
- Regional focus where consoles do not have large footprint or inaccessible, but high PC and mobile penetration (ie. India and Africa)

Product Differentiation

Horizon 1	• Best-in-class console gaming experience with Xbox Series X and Lockhart SKUs • Strong content portfolio of first-party and third-party game titles • Game Pass content subscription service across PC and console
Horizon 2/3	• xCloud game streaming to mobile, PC and every computing end-point • Access to all game content, across all devices • AI innovations on xCloud in latency input prediction, player matching, automated game testing, AI Agents • Console as Azure Edge device • New Azure ML Workload SKU using racked Scarlett data centers

GOOGLE ENTERS GAME STREAMING MARKET WITH STADIA SERVICE

The New York Times

TECH FIX

Google Stadia Wants You to Replace Your Video Game Console. Don't.

The search giant's new console-free gaming service is a neat concept. But there are bugs and too many unknowns.

GAME STREAMING COMPETITIVE LANDSCAPE

OFFERING		GAMES	PLATFORMS	STRENGTHS & WEAKNESSES
	\$120 setup + \$10/month + Cost of buying each game (\$20-\$60)	30	Chrome browser TV (Chromecast Ultra) Smartphone	↑ Google willingness to invest ↑ Youtube click-to-play
	\$5-\$10/month	650	PS4 Windows PC	↑ Large game catalog ↓ No mobile offer ↓ Weaker game catalog
	\$5/month w/ free tier + Cost of buying each game	1,500 Partnership with Steam, Ubisoft, Epic	Nvidia shield TV Browser smartphone	↑ Low cost to serve ↓ Lost support from EA, Activision Blizzard, Bethesda, 2K Games
	TBD	TBD	TBD	↑ Expansive cloud infrastructure
